Contents (6)
List of Tables (8)
List of Figures (9)
Chapter 1: Introduction 1
  1.1 Background 1
  1.2 Research Objectives, Scope and Hypothesis of The Study 1
  1.3 Relation of Research and Reference Documents 2
  1.4 Review of Literature 6
Chapter 2: Methodology 9
  2.1 Study Design and Sampling Technique 9
  2.2 Graphical and Statistical Methods 10
  2.3 Computer Programs for Analysis of Data 15
Chapter 3: Preliminary Data Analysis 17
  3.1 Description of the Variables 17
  3.2 Frequency Distributions of the Determinants 18
  3.3 Distributions of Intervening Variables 22
  3.4 Distribution of Structured Outcome Variables 24
  3.5 Correlation between Questionnaire Responses 27
Chapter 4: Statistical Modeling 36
  4.1 Factor Analysis 36
  4.2 Comparison Between Each Factor and Each Determinant 44
  4.3 Linear Regression Analysis 51
Chapter 5: Conclusion and Discussion 54
  5.1 Conclusions 54
  5.2 Discussion 56
  5.3 Study limitation 57

List of Tables

Table                                       page
2.1 The sample size for each police station 10
3.1 Variables and their Roles and Data Type 18
3.2.1 Distributions of categorical determinants 19
3.2.2 Distributions of categorical determinants 20
3.3 Distributions of binary intervening variables 22
3.4 Numerical responses to question 19 23
3.5 Distribution of experience of violence 23
3.6 Distribution of experience of loss 24
3.7 Distribution of responses to question 24 and 25 24
3.8 Distribution of responses to question 28 24
3.9 Numerical summaries of questionnaire outcomes 25
3.10 Numerical summaries of GHQ-12 26
3.11 Numerical summaries of IES-15 26
3.12 Correlations between responses for outcome in part 1 (binary) 28
3.13 Correlations between responses for GHQ-12 28
3.14 Correlations between responses for IES-15 29
3.15 Cross tabulation of responses to items 9 and 13 on IES-15 30
3.16 P-values for relations between determinants and consistency 35
4.1 Results for goodness-of-fit tests of factor models in Part 2 36
4.2 Results for goodness-of-fit tests of factor models in Part 3 36
4.3 Varimax-rotated loadings for five factor model in part 2 37
4.4 Varimax-rotated loadings greater than 0.33 for five factor model for part 2 38
4.5 Varimax-rotated loadings for six factor model in part 3 39
4.6 Varimax-rotated loadings greater than 0.33 for six factor model for part 3 40
4.7 Numerical summaries of the eleven outcome factors 42
4.8 P-values relating each determinant and each factor variable in part 2 45
4.9 P-values relating each determinant and each factor variable in part 3 45
4.10 Results for fitted multiple regression models containing all 13 determinants 51
List of Figures

Figures

3.1 Histogram of police officers’ age 21
3.2 Histogram of police officers’ length of service 21
3.3 Histogram of police officers’ length of duty 22
3.4 Graphical responses to question 19 23
3.5 Comparison of questionnaire outcome 25
3.6 Comparison of questionnaire outcome in part2 and part3. 27
3.7 Odds ratio plot of police station and consistency of response 31
3.8 95% confidence intervals and box plots of age and consistency response 31
3.9 95% confidence intervals of length of service and consistency response 32
3.10 Odd ratio plot of rank and consistency of response 32
3.11 Odds ratio plot of salary and consistency of response 33
3.12 Odds ratio plot of adequacy of salary and consistency of response 34
4.1 Scatter plot matrix of relations between each pair of factor indexes in part 2 43
4.2 Scatter plot matrix of relations between each pair of factor indexes in part 3 44
4.3 Comparison of mean can’t cope outcome scores by police station 46
4.4 Comparison of means dislike job factor by duty 47
4.5 Comparison of means dislike job factor by adequacy of salary 47
4.6 Comparison of means worried outcome scores by home province 48
4.7 Comparison of means low self esteem outcome scores by home province 48
4.8 Comparison of means dislike job outcome scores by home province 49
4.9 Comparison of means haunted outcome scores by home province 50
4.10 Comparison of means escaping outcome scores by duty 50
4.11 Reduced regression model for Can’t cope factor 52
4.12 Reduced regression model for dislike job factor 53
